Partner Operations Analyst (Sports Betting Syndicate)

Hiring organization
Gainr Trading Ltd

Description

We are looking for a talented entrepreneurial individual to join our new sports betting syndicate to develop its growth.

Employment Type
Full-time

Reporting to the syndicate Chairman, this is a true Greenfield opportunity to make your mark on a business that is set to become the largest sports betting syndicate in the world and a big name in the alternative investments sector.

Date posted
January 22, 2025

Responsibilities

- Source profitable trading strategies from partners.
- Conduct statistical analyst on trading strategies such as bet sizing and portfolio optimisation simulations.
- Create various derivative markets from partners main market strategies.
- Specify ongoing detailed requirements for our partner trader application and partner reporting dashboards.
- Monitor on-screen/API partner trades.
- Liaise with partners on various issues.

Qualifications

- 5-10 years experience in sports trading on Asian books and exchanges as a senior trader/analyst. Syndicate experience is a big plus.
- Strong knowledge of sports derivate markets.
- Solid grasp of statistics and risk management principles such as Modern Portfolio Theory.
- Requirements gathering experience.
- Excellent stakeholder management skills.
- Demonstrable experience building processes to establish best practices.
- Proficiency in MS Excel and Power Pivot.
- Proficiency in either MATLAB or Python.
- A meticulous attention to detail.

Nice to have:

- FRM qualified.
- Proficiency in Power BI.
- Experience with Scrum/Agile project management methodology.
- Basic knowledge of DeFi/Tokenomics.

Job Benefits

- Generous share in the syndicate.
- Fully remote – work from anywhere in the world.
- Flexible working hours.
- Flat structure.

To be considered for this role, email your CV to jobs@gainr.ai and we will get back to you if chosen to progress to the interview stage.

About Us

Gainr is an ecosystem of five synergistic projects at the intersection of AI, Web 3.0 and Sports Analytics. The Gainr team is comprised of seasoned technology entrepreneurs, professional traders, published subject matter experts and distinguished academics.

Gainr AI is a joint project with academia in the application of the latest Deep Learning techniques for the development of innovative AI driven TradeTech, WealthTech and GamTech products and services.

Gainr Analytics is a Hong Kong based alternative trading analytics firm with a focus in sports markets. We develop pricing models to identify alpha opportunities from our client's proprietary data assets.

Gainr Trading is a next generation manager of scalable alternative trading funds, administered and audited by Suntera and powered by our in-house and our partners verified prediction market models.

Gainr Equity administers Gainr Coin, an equity token backed by Gainr Trading that allows retail investors access to our funds without impacting market liquidity and which emphasize transparency and governance.

Gainr Advisor is an alternative markets intelligence service which allows retail investors access to verified trading strategies. Investors pay for the service using Gainr Coins which they purchase on exchanges.
